

## BRITISH WORKERS TO BE INSURED BY THE STATE

Plan Submitted to Commons  
for Indemnity Against Sick-  
ness and Idleness.

APPLIES TO 14,700,000.

Lloyd George's Bill Greeted  
With Cheers by All Parties  
in Parliament.

LONDON, May 5.—A state insurance  
plan to protect 14,700,000 men and  
women against sickness, idleness or  
invalidity was introduced in the House  
of Commons yesterday by David Lloyd  
George, the Chancellor of the Ex-  
chequer.

The total amount to be raised for  
the dual plan of insurance and the tu-  
berculosis campaign would be \$122,-  
500,000, of which amount the state  
would contribute \$12,500,000 in the first  
year. By the fourth year the state's  
contribution would be almost \$27,000,-  
000, but measures for the relief of un-  
employed in myriads of homes  
would have been taken.

Mr. Lloyd George estimated that the  
expenditure incurred would be \$35,-  
000,000 in 1913-15, rising to \$100,000,000 in  
1920-22.

Reaches All Workers.

Every worker between the ages of six-  
teen and sixty-five years whose annual  
earnings fall below the income tax level  
of \$300 (\$200) will be compulsorily in-  
sured against illness so as to assure  
him the receipt of five shillings (\$1.25) a  
week during incapacity. Toward this  
the worker would contribute about one-  
half the amount being deducted from  
his wages, while the balance would be  
paid jointly by his employers and the  
state, the employers paying six cents  
and the Government four. The weekly  
assessment against the insured would  
be eight cents for a man and six for a  
woman, representing, as the Chancellor  
put it, "two pints of ale or one ounce  
of tobacco."

Provision is made whereby women will  
receive \$7.50 in maternity cases if they  
do not work for a month following  
childbirth and for free medical at-  
tendance for every contributor.

Unemployment Insurance.

The unemployment insurance, the  
Chancellor said, will apply at first only  
to the engineering, shipbuilding and  
housebuilding trades, involving 2,500,000  
workers. Both workers and employers

would pay 5 cents a week each, the  
state contributing \$170,000 a year, or  
about one-fourth of the total cost. The  
contributors when unemployed would  
receive a maximum of \$3.75 and a mini-  
mum of \$1.75 weekly. No payment  
would be made in strikes or lockouts.

Although in cases of permanent dis-  
ability the sick allowance would be  
\$1.25 a week, \$2.50 would be allowed to  
a man for the first three months and  
\$1.87 to a woman. Those who invite in-  
capacity will receive no insurance,  
though necessary medical treatment  
will be provided.

The state will also help in the crus-  
ade against consumption, providing \$7,-  
300,000 to aid local authorities in build-  
ing sanitariums and \$5,000,000 toward  
their maintenance.

The Chancellor was loudly cheered  
when he concluded his speech. J. Aus-  
ten Chamberlain supported the bill,  
saying that the Opposition desire to  
co-operate in the legislation.

Approval of the bill's principles was  
expressed by representatives of all  
parties.

Collier for Maine Relief.  
WASHINGTON, May 5.—The navy  
authorities were today informed by  
the army engineers charged with re-  
moving the wreck of the Maine from  
Havana Harbor that the construction  
of the steel cofferdam has been com-  
pleted and that the work of pumping  
it out will begin May 25. The Navy  
Department will send a collier to Ha-  
vana to take aboard any material of  
historic value that may be raised, as  
well as the bones of any of the victims.

shoes out of the ordi-  
nary for Growing Girls**  
It has been the custom for years  
with shoemakers to adopt a hit-  
or-miss policy in making these  
shoes, using as a basis children's  
lasts, without a great deal of  
thought being given to the harm  
resulting to the wearer.

Our shoes for Growing Girls are made on lasts  
that have all the style and character of the Cam-

make these shoes distinctive from those of childhood.
